Rogate:

- A272 West Street
- C7 North Street
- A272 East Street
- A272 Parsonage Estate to School Lane
- A272 Petersfield Road
- D58 Parsonage Estate

Contact: West Sussex Highways 01243 642105

Carriageway Resurfacing, road markings and high friction surfacing.

Overnight Road Closure from 19:00 to 06:00 each night. As the A272 is a major route and a closure requires a very large diversion, overnight closures are the only viable option to minimise disruption.

Please note that this type of work is subject to last minute date changes due to weather conditions, equipment breakdown or emergency work taking priority. The works may start at any time up to 5 days from the planned start date. On street yellow 'Advanced Warning' boards will provide details of latest dates.

Carriageway Resurfacing

This process will involve removing the surface layer of the tarmac and replacing with new material.

Due to the large machinery used to surface the carriageway, traffic management will be in operation to enable us to safely carry out these works in a timely manner.

Advance warning signs will be erected stating the start time and the duration of the works. On the day of the works please don't park in the road unless you have off-street parking.

Access to properties will be maintained where possible. However, during periods when materials are being laid, access may be limited. If you have any queries or concerns about access during the works please ask for the site foreman who will be happy to help you.

When driving on the new surface, please keep to the signed temporary speed limits and avoid heavy braking to allow the surface to stabilise.
