

Modern Slavery and Human Trafficking Policy

Rogate Parish Council undertakes due diligence when selecting employees and any third parties when entering into contracts and communicates its zero tolerance approach to slavery to new employees and any third party with which it conducts business at the outset of the relationship.

If any doubts are raised about a supplier as to whether they are involved with slavery and/or human trafficking and the relevant supplier does not provide evidence to the contrary, Rogate Parish Council will cease arrangements with that supplier as immediately as practically and contractually possible.
