

Rake Village Hall

Report to Rogate Parish Annual Meeting 2024

In the last year we have undertaken major upgrades of the lighting and heating throughout the hall which will reduce our energy consumption and improve the use of the hall. We are now connected to the world through wifi although there are some teething problems. Also have installed new flooring in the toilets and undertaken a redecoration there. In addition we have acquired a sound system with a smartphone connection. In the next few weeks a partial redecoration of the hall and stage will take place. We will also be appointing a contractor to construct a tarmac path from the car park to the children's playground.

We are currently looking forward to blossom on the orchard fruit trees and early signs are encouraging.

Our hirings have recovered from the covid period but need to increase as we only just have sufficient revenue to fund our general expenses and outgoings.
